TODAY

We continue to seek new
ways to improve the life
quality of fellow human
beings and the services
provided to physicians and
healthcare providers

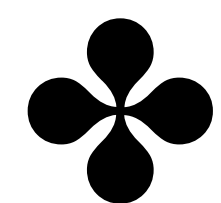

OUR GUIDING PRINCIPLES

- 1. SCIENTIFIC RESEARCH**
Prioritizing in-depth research to ensure the excellence of our natural products and services.
- 2. NATURAL INGREDIENTS**
Selection of beneficial, natural ingredients, excluding preservatives, gluten, chemical additives, and GMOs.
- 3. CRUELTY—FREE PRACTICES**
Strong opposition to animal testing throughout our production process.
- 4. ACTIVE HUMANITARIANISM**
Offering special benefits to vulnerable social groups, investing in public health knowledge, and donating 1% of annual profit to humanitarian causes.
- 5. RESPECT FOR EVERYONE**
Devoting our effort to help everyone live a better and healthier life.

✿ OUR FACILITIES

Physis Laboratory's lab, has been operating since 2015 in accordance with the European GPP Standards (Good Preparation Practices) and is the first laboratory in Greece to be certified according to the **ISO 9001:2008** standard.

SAFETY + INNOVATION

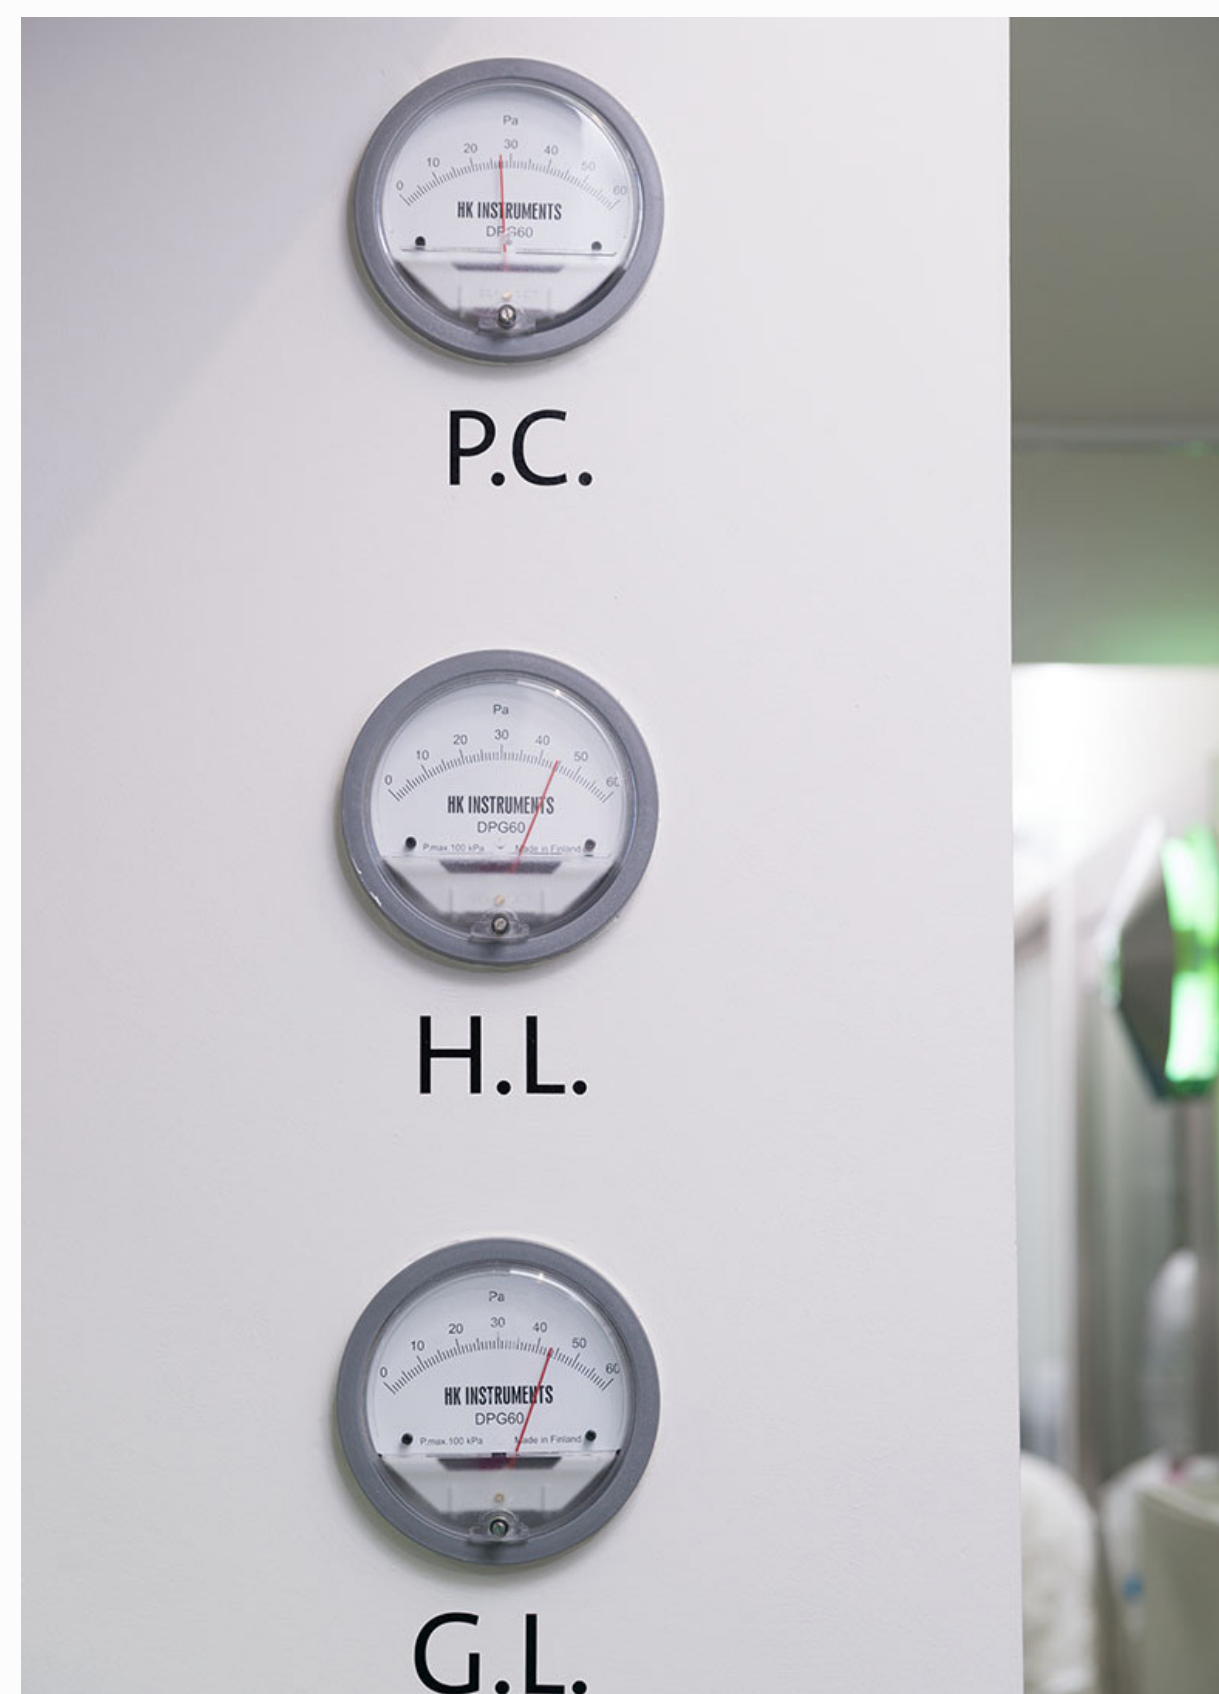

Our laboratory facilities belong to the **class B clean rooms** with three separate spaces: galenic laboratory, homeopathic laboratory, and raw materials storage room.

The laboratory operates under positive pressure with an air processing unit of various pressures (**HEPA filters**), creating an airflow from the interior to the exterior.

The innovative laboratory infrastructures ensure the avoidance of contamination and unwanted microbial loads.

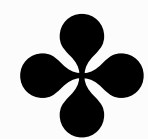

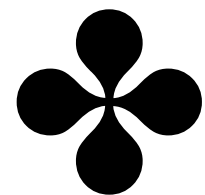

Laboratory surfaces are made of epoxy resin for zero absorption and high resistance to corrosion, while they are cleaned with special disinfectants, following strict cleaning protocols.

An energy grid has been installed in Physis Laboratory's lab to balance the electromagnetic radiation, aiming for the best quality pharmaceutical preparation.

❖ WE WILL NEVER OFFER ANYTHING THAT WE
HAVE NOT THOROUGHLY RESEARCHED,
INSPECTED, AND MADE SURE THAT IT'S QUALITY
IS TRULY EXCELLENT
